**IGETC CERTIFICATION PROCESS**

Certification request must be after the student completes the IGETC courses. Certification request forms may be obtained from the Transfer Center (SS140) or at www.assist.org. Certifications will be processed when courses are still in progress or before grades are known. Certification of IGETC is the responsibility of the host California community college a student attends prior to transfer. Students must attach official transcripts from other colleges to their request for IGETC certification unless an official copy is available in SBCC’s Admissions and Records. IGETC coursework completed in specific subject areas at other California community colleges will be used in the area designated by the CCC at which the course was completed, according to IGETC policy (920-54-05). Approvals for non-CGC general education areas, as well as in mathematics, natural sciences, social sciences, and liberal arts that are completed at United States regionally accredited institutions may be certified on IGETC if the courses meet IGETC Area Standards in their content, prerequisites, texts, units, (IGETC Standards Section 10.0). International coursework may be applied to IGETC if the international institution has United States regional accreditation. All other international coursework cannot be applied to IGETC (Exception: Area 6A - Language Other than English).

**PARTIAL IGETC CERTIFICATION**

Partial certification is defined as completing all but two (2) courses on the IGETC pattern. The UC or CSU is responsible for satisfying one course requirement, with the exception of the English requirement. Students who earned credit from an AP exam should not take a comparable college course because transfer credit will not be granted for both. For information about course credit awarded by each CSU campus, contact the individual campus. For the UC AP credit policy and for information about course credit awarded by each UC campus, visit https://admission.universityofcalifornia.edu/admission-requirements/ap-exam-credits/ap-credits/.

**ADVANCED PLACEMENT EXAMS WITH SCORES OF 3, 4, OR 5 APPLICABLE TO IGETC CERTIFICATION**

A score of 3, 4, or 5 is required to grant credit for IGETC certification. Each AP exam may be applied to one IGETC area as satisfying one course requirement, with the exception of English. AP exams with earned credit of 3, 4, or 5 may be applied to IGETC only through an advanced placement course or by specific tests. Total credit and completion of IGETC is not advisable for all transfer students. Students who do not complete IGETC are strongly encouraged not to use IGETC. However, students who initially enroll at a UC, attend a community college and return to a different UC campus, may be able to use IGETC, but should check with the campus they wish to attend. This restriction does not apply to students who have taken UC summer sessions or Extension classes only.
